with judicial
systems to
evaluate the
best program for
offenders**

Livengrin Knows

Tools are
available to help
prevent backsliding

Avoid mixing alcohol,
drugs, and cars

No one recovers on
their own

DUI Services from Livengrin help keep our roads and communities safer and our courts moving. Local and regional authorities in Pennsylvania turn to Livengrin to evaluate and educate offenders as they go through the legal system with the goal of helping those drivers avoid continued recidivism.

Our Court Reporting Network (CRN) assessment process works within court mandated fee structures to provide fair, efficient, and thorough client assessment for court review. Livengrin can also provide integrated private, secure, 24/7 access for lawyers, probations, corrections, judges, and other court officers to keep tabs on their DUI case loads.

Program Overview

The Livengrin DUI school model and credentialed facilitators foster a driver's understanding of legal and moral responsibility while in a positive, non-judgmental environment. Most of those attending do so as part of a court ruling, but the impaired driving classes and group sessions are open to anyone.

The DUI program elicits drivers' comprehension and acceptance of their responsibility to not drive under the influence. For those diagnosed with substance use disorder, the program provides useful tools for relapse prevention. Attendance at victim impact panels offers dramatic exposure to the suffering of those whose lives have been forever changed by impaired drivers.

LIVENGRIN

Mission Statement

Making sustainable recovery possible through professional, accessible, and successful treatment options.

Vision Statement

Provide a process of change for those suffering from addiction whereby a life of recovery is achieved, emotional and physical health is stabilized, and family networks are improved.

Evaluation

Evaluations are available by appointment, in which a trained professional works with the judicial system to determine what program will be most helpful to both first-time and chronic offenders.

Outreach

The Livengrin DUI program reaches out to parts of the community that are often culturally isolated due to language and other barriers, and conducts DUI programs in Spanish and Russian as well as English. Our DUI staff also works with area schools and programs to communicate to young drivers the critical message about avoiding the mix of alcohol, drugs, and cars.
