

**SPECIALTY
PROGRAM**

**Patient Care Coordinators
(PCC)**

**Let the Livengrin
Aftercare Team
help manage your
life challenges,
so you can stay
focused on your
recovery**

Livengrin Knows

Care goes beyond
clinical needs

Support goes
beyond the patient
to families,
caregivers, and
employers

No one recovers
on their own

Upon admission, every patient receives a dedicated PCC who will assist with clinical support throughout their early recovery. The PCC staff works alongside both the patient and the clinical team to help identify, manage, and relieve patient “life” issues such as:

- **Employment:** Help you with job related issues such as Family & Medical Leave Act (FMLA), short term disability (STD), and COBRA paperwork, letters, and documents for employers
- **Legal:** Help you navigate legal issues with probation officers, lawyers, law enforcement, etc.
- **Mental Health:** Assist with scheduling follow up appointments with a mental health provider
- **Housing:** Placement in qualified recovery housing. We regularly audit all recovery houses that we recommend in person to ensure the highest quality of the locations. Video tours are available of many of our approved houses.
- **Aftercare:** Provide referrals for continuing care in and out of the Livengrin Network. Livengrin only refers patients to facilities that are state licensed and accredited by either the Commission on Accreditation of Rehabilitation Facilities (CARF) or The Joint Commission.
- **Community:** Provide information on 12 step meetings, sober activities, sports, and recovery events in the community
- **Follow-up:** Contact you following residential treatment (within 7, 30, 60, 90 days, 6 months, 9 months, and 1 year) to encourage continued recovery, identify any stressors as soon as possible, and measure outcomes
